

marmox multibond

Sealant and Adhesive

www.marmox.co.uk/multibond

Marmox Multibond is a one part, ready to use sealant and adhesive. Multibond is made in the UK using the latest environmentally friendly technology and is non-solvent based making it compatible with virtually all materials. Marmox Multibond is the all-in-one solution that replaces all acrylic, silicone and butyl based sealants/adhesives.

Sticks to...

- Polystyrene
- Ceramics
- Masonry
- Wood
- Plaster
- Plastic
- Stone
- Metal

Uses

- Ideal for use with all Marmox products (e.g. Multiboard, Showerlay and Showerstone)
- A strong adhesive for fixing almost any type of material
- A waterproof seal for joints and holes – maximum 25mm
- To seal and securely fix bathroom and shower fixings
- Flexible sealing around flooring that can account for movement in the floor
- Fix ceramics, masonry, wood, plaster, plastics, metal and stone

Features

- The only sealant available on the market that is completely VOC free
- Can be used for all applications internally
- Fire rated up to 4 hours both integrity and insulation
- Resistant to mould and mildew
- Easy clean excess with damp cloth before dry
- Visco elastic - allows 3D movement in joints
